THROW WHEEL RECYCLING PROGRAM

Leonard Enterprises, Inc. is happy to announce its new throw wheel recycling program. This program will allow our current and future customers to save on the replacement of their throw wheels in the cryogenic deflashing machines. LEI has started this program to reduce the overall cost and waste of old/worn throw wheels. These old/worn wheels can be re-

turned to LEI. We will refund our customers up to \$300.00 (applied to the purchase of a new/used wheel) for each throw wheel that is returned. LEI will then rebuild the old/worn wheels and offer them at a discounted rate.

**Go GREEN with LEI****SPECIAL POINTS OF INTEREST:**

- **Throw Wheel Recycling program**
- **New Web Site**
- **Cryogenic Tumbler**

WEB SITE REDESIGNED

The LEI web site has been redesigned from the ground up. New information on all of our services and equipment is now easier to find than ever. Included on the new site are demo movies of cer-

tain equipment with more to come in the future. There is also a news section for recent developments within LEI. Be sure to stop by once in awhile and see what is new. Feel free to leave any

comments on the web site, send us an email or give us a call, we will be happy to hear from you

COMING SOON

Leonard Enterprises, Inc. is currently in the developmental stages of a new cryogenic tumbler line. This tumbler line will feature quiet, clean and user friendly designs. The first designed units of the line should be out sometime in February. The initial design will be of a 6 cubic foot model. This unit will be an enclosed unit that will reduce the overall

noise of the tumbling process. Once the full line is out we anticipate to have the following sizes.

- 2 cu ft
- 6 cu ft
- 12 cu ft
- 24 cu ft

So be sure to check back with us in February for the new cryogenic tumbler line.
